Muhammad Azhan

FRONTEND DEVELOPER

Computer Science Student • Karachi, Pakistan

PROFILE

Fresher frontend developer and 2nd-year Computer Science student from Karachi who builds clean, user-friendly web interfaces with HTML, CSS, JavaScript, React.js and Tailwind CSS. Has designed and deployed five live projects, including admin dashboards, an e-commerce store and a multi-page business website, and is now growing into full-stack development. Looking for an entry-level frontend role, onsite in Pakistan or remote worldwide, to build polished products and keep learning from a strong team.

PROJECTS

E-Commerce Admin Dashboard

LIVE DEMO

azhan787.github.io/E-commerce-Dashboard *HTML • CSS • JavaScript*

- Built a multi-section admin panel with Dashboard, Products, Orders, Customers, Analytics and Settings pages, KPI cards, revenue charts and order tables.
- Added status filters, product and order modals, notifications, and settings for theme, accent color and security.

MoveBuddy Transport Website

LIVE DEMO

azhan787.github.io/MoveBuddy *HTML • CSS • JavaScript*

- Built a multi-page website for a transport company with 15+ pages: home, about, services, FAQ, team, contact and a page for each vehicle service.
- Included a quote-request form, animated skill counters and a testimonials section.

Furniro Furniture Store

LIVE DEMO

spectacular-platypus-88a1aa.netlify.app *HTML • CSS • JavaScript*

- Built a modern furniture storefront with Home, Shop, Product Detail, Cart and Contact pages.
- Designed product cards with discount and new badges plus add-to-cart, share, compare and like actions.

Berry Dashboard

LIVE DEMO

berry-dashboard-six.vercel.app *React.js*

- Built an admin dashboard interface in React.js and deployed it live on Vercel.

Student & Trainer Portal (Saylani Dashboard Clone)

LIVE DEMO

saylani-dashboard-clone.vercel.app *React.js*
